

AP Statistics Contract Spring 2017

You are to be commended for taking the opportunity to complete college-level studies at Panther Creek. Successful completion of this course will not only prepare you for the AP Exam in May, but also provide you with the groundwork for further study in statistics at the college level. Along the way I hope you gain an appreciation for the discipline and genuine interest in your studies.

AP Statistics is quite different from a standard Statistics course. The course moves faster, covers more content, and requires greater mastery of the material. As with all Advanced Placement courses, AP Statistics presumes a high level of motivation, commitment, and highly refined study skills including but not limited to quality note taking, exhaustive test preparation, and a very strong desire to learn. Those who have trouble testing will have trouble excelling in the course.

Course Objective:

The primary goal of this course is to prepare you for the AP Exam in May.

AP Statistics introduces students to the major concepts and tools for collecting, analyzing and drawing conclusions from data. Students will observe patterns and departures from patterns, decide what and how to measure, produce models using probability and simulation, and confirm models. Appropriate technology, from manipulatives to calculators and application software, will be used regularly for instruction and assessment.

The burden of success or failure lies on your shoulders; I can show you the way, but you will have to dedicate yourself to meeting our goals! Many of you will find this rigorous experience quite rewarding.

Dear Parent or Guardian,

Parent/teacher communication is essential to the success of any child in school. If at any time throughout the year, you feel you need to contact me, please do so. My contact information is included in the course syllabus.

If you haven't already, please read the course syllabus. When you are finished, take a moment to fill out the information requested below. This will not only give us your contact information, but also indicate to us that you have read the course syllabus and this AP contract.

*Sincerely,
Mrs. Afeefa Ayesha
Mrs. Robin Dixon*

Please download, print and complete page two of this document.

Return the signed form to your instructor on Day 2 of your class.
